

## WehoTanks High Density Polyethylene Tank System

WehoTanks are manufactured out of high-density polyethylene (HDPE) Weholite pipe that conform to ASTM F894 and verified by a third-party certification body (NSF). WehoTanks are custom fabricated

and can be manufactured to meet most of your design requirements and feature sizing ranging from 60" to 132" ID. WehoTanks are designed to operate at 7.5psi of internal pressure. All fittings and field joints are tested to ensure a

leak tight system. WehoTanks are designed to meet the required service requirements and each WehoTank system is accompanied with shop drawings and engineering support.

### WehoTank Applications:

- CSO tanks
- Sanitary sewer detention tanks
- Stormwater attenuation tanks
- Chemical storage tanks
- Rainwater harvesting tanks
- Water storage tanks
- Septic tanks

### WehoTank Advantages:

- Corrosion resistant HDPE structure
- Leak proof joints
- Lightweight design for improved handling and installation
- Custom manifold configurations
- Custom fittings
- Available live load manholes
